

My role model is Doctor Ben Carson because he refuse to be what people wanted him to be but he proved that he can be what people never thought of him.

Something interesting about me is that I like doing things and doing subjects like Maths and Physics which other girls despise them because they require calculation and high level of thinking this makes me very unique in class.

My best friend is Valentine Kipano who is also in form one in Baraka Girls high school.

I would like to receive a letter and photos from you.
THANKS ALOT!

Love,
Joan.
